2000MM WIDE X3 BENCH DESK FRAME

Product Overview

The X3 Bench Desk Frame is a modular, back-to-back desking system designed to create two individual 2000mm wide workstations. Its flexible design allows the system to be configured as a single desk, multi-person bench, or expanded workstation solution using interchangeable components and extension sections.

Key Features

- 2000mm workstation width per user
- Modular system for flexible office layouts
- Choice of two different frame heights
- Expandable design using interchangeable leg extensions
- Compliant with BS EN 527-1:2011 (722mm frame height)
- Improved cable management with compact top fixing
- Slimline beam and foot design for a cleaner appearance
- Compatible with a wide range of desktop sizes and finishes

Included Components

- 2 × Pairs of terminal legs
- 2 × Leg extensions
- 2 × 1834mm support beams

Included Fixings

- Blades
- Grub screws
- Fixing plates
- Screws
- D-nuts
