

## A Versatile On Desk Power Module

The perfect solution for power and data distribution in office or home office desks. Engineered to enhance workspace functionality and ergonomics, ensuring maximum comfort while working, PHAZE-C is easily installed onto the desk surface and comes with clamps (under-desk or top fix).

PHAZE-C brings power and data connectivity to any type of desktop with a discrete, round design blending well in various working environments.

### Key Features

- Certified with the BSI Kitemark KM 686563 (UK)
- IEC 60884-1:2002 + A1:2006 and IEC 60884-2-7:2011 + A1:2013 (Europe)
- Available with a choice of country-specific AC power sockets
- Available with 35W USB A+C Charger (PD & QC)
- Available with the interchangeable multimedia plate (IMP) system
- Universal clamps provided for either top of the desk or under the desk installation
- Designed to fit desk thickness 10mm to 35mm
- G type (UK) sockets are individually fused with 3.15A or 5A fuse. Available in up to four sockets with 5A fuse and in up to six sockets with 3.

## Technical

**Configuration:** Power / Multimedia / USB A+C chargers (PD & QC) / Combined  
Power and Multimedia in combined units are separated internally

**Earthing:** Fully earthed

**Fusing:** (UK sockets only to enable compliance to BS6396) 5mm x 20mm ceramic fuses, with appropriate marking indicating the rating (3.15A/5A). All sockets feature integral, spare fuses patented by ABL. Choice of up to four sockets with 5A fuse, and up to six sockets with 3.15A to comply with BS6396.

**Power cord:** 0.5m standard lead with 3 Pole connector allows mains or connector leads to be changed to suit requirements, especially useful during moves and changes. Optionally available hardwired cable with appropriate national mains plugs.

**Testing:** 100% testing - continuity, polarity & earth. Testing of the USB PD & QC chargers: Output voltages, electrical current, and power in all types of charging standard.

**Safety:** Items such as Vacuum Cleaners, Kettles, Coffee Makers and Fan Heaters should not be connected via these power modules. Installation is to be carried out by a qualified professional.

**Maintenance:** Do not open, disassemble, change, or modify the device. Every unauthorised opening or repairing of the device leads to loss of warranty. During device usage, you need to follow basic safety measures. Since safety requirements vary, please check with local laws

All PHAZE-C power modules are fully manufactured in-house using ISO 9001:2015 quality-controlled practices.

Our power modules are tested in accredited laboratories of certification houses twice a year, while in-house quality control testing of each product is completed on every single power module before it leaves the factory.
