

BPF Policy on RoHS Directive 2002/95/EC

According to our raw material suppliers and under the direction of our manufacturing partners, all our products are generally outside the scope of RoHS and WEEE. BPF believes that the following standard materials comply with the European Union Directive 2002/95/EC (RoHS): Aluminium, EVAC04, EVAC86, paper, PE-HD06, PE-LD01, PE-LD67, PD-LD75, PE-LD78, PP07, PP08, Silicone, TE019, TE070, standard option colours, and standard option PVC.

If this certification is not detailed enough for the requirements of your company, BPF may be able to provide special certification through our manufacturing partners that meet with your requirements, contact us for availability and cost. This special requirement must be stated on all customer purchase orders along with the extra charge.
