

# 12 REASONS TO CHOOSE FAKRO

## 1 Recyclable windows

FAKRO windows are coated in eco-friendly lacquer and are **99% recyclable**.

## 2 Added security (topSafe)

FAKRO windows come with unique reinforced elements to the handle, keep-plate and hinges as standard, unlike any other windows on the market. This makes them one of the most safe and secure products currently available.

## 3 More daylight

With the **handle at the bottom**, the window can be fitted higher in the roofline and still manually operated – giving a greater spread of natural daylight into the room.

## 4 Reliable products

The **sash guiding system** on FAKRO roof windows allow the sash to close correctly within the frame and ensure that all seals work to maximum effect.

## 5 Top-quality materials

Using only **slow grown redwood** ensures an aesthetically pleasing close grain finish; guaranteed of being knot free on all visible surfaces.

## 6 Money-saving glazing

FAKRO U8 and P5 glazing have some of the **lowest u-values on the market** – keeping the home warm and saving money on utility bills.

## 7 Easy to fit

The **universal bracket fix system** with no fuss L-shaped brackets can be fitted to either the battens or the rafters - giving greater choice in the positioning of the window.

## 8 Moisture prevention

Condensation can escape to the outside thanks to a **unique draining system** resulting in greater durability - preventing moisture from entering into the timber.

## 9 Fresh air control

The **V40P automatic air ventilation** provides the room with fresh air, even when the window is closed. The vent then closes if winds are high.

## 10 Weather-proof

The compression seals in the **quadruple sealing systems** give a high level of air tightness and a first-class weather seal.

## 11 Variety of colour options

FAKRO can manufacture windows in any **RAL colour** internally and externally. Pink, blue, red, or green – the choice is yours.

## 12 Excellent customer service

From the technical team, to customer service, to the accounts department, your friends at **FAKRO are ready to help**.
